The new 40W LightForce® XLi with Empower IQ™ Delivery System combines power and intelligence to bring innovation to the laser therapy treatment room. Designed for busiest practices who desire the fastest, most effective treatment solution, the LightForce® XLi brings science and technology together to treat deeper structures more efficiently, making it easier to impact pain.

Product Specifications
- **LightForce® XLi**
- **Laser Type:** Class IV, Solid State
- **Laser Wavelength:** 980/810 nm
- **Laser Power:** 0.5W – 40W
- **Operating Modes:** CW or Pulsed
- **Aiming Beam:** 650 nm, 4.5 mW
- **Dimensions:** 17" x 10.5" x 11" | 43 cm x 28 cm x 26 cm
- **Weight:** 19.6 lbs | 9 kg

**DANGER – Visible and invisible laser radiation.**
Avoid eye or skin exposure to direct or scattered radiation.
Class IV Laser Product 980/810nm, 40W, CW

Powered by the next level of LightForce® Influence® Technology, the 40W LightForce® XLi was innovated with the clinician in mind. In order to achieve effective treatments and improve dosing accuracy, the XLi assesses the operator’s speed and gives real-time visual and sensory feedback. The in-depth protocol settings provide recommended parameters on treatment heads and power levels to aid in technician confidence and reduced learning time.

The 40W LightForce® XLi is our most powerful laser ever. The increased power directly impacts the time needed to apply a therapeutic dose of light energy, allowing clinicians to decrease the time required to treat effectively. The higher power equips clinicians to treat deeper and faster while covering more tissue area with the new XL Treatment Cone.

LightForce® began development on the XLi after listening to our customers. Clinicians requested more feedback from the laser on the accuracy of their treatments, and we went to work. Our team of innovators rigorously researched and tested to develop the technology needed to provide real-time feedback and in-use recommendations. The result? More accurate treatments for clinicians, and better outcomes for patients.

The new Empower IQ™ Delivery System changes the game in laser therapy emission. Built to be user-friendly and responsive, Empower IQ™ is the new generation of delivery technology.

Handpiece. Built-in dosing feedback technology with embedded finger switch and indicator lights. Ergonomic styling for operator comfort.

Quick Disconnect Heads. Quick-release and change-out treatment heads for better ease of use. Smart system for sensing appropriate applicators, power associated, and sweep speeds. New XL Treatment Cone with generous spot size for treating larger surface areas. LightForce® patented massage ball for on-contact treatment.
